

## Zac Fox - Resume

### Professional Bio

Zac Fox is a seasoned operations strategist, facilities specialist, and Special Forces veteran with over two decades of experience spanning military intelligence, low-voltage infrastructure, and site operations. After serving 8+ years as an Intel NCO with the 1st Special Forces Group (Airborne), Zac built a career managing critical systems-from fiber networks and AV systems to physical security and facilities infrastructure.

Currently serving as a Facilities Specialist, Zac is responsible for maintaining and improving operational efficiency, safety compliance, and lifecycle asset management in complex environments. He brings a mission-first mindset to every project, fusing tactical experience with hands-on expertise in troubleshooting, structured cabling, electrical systems, and physical plant operations.

Whether orchestrating combat operations or upgrading data center infrastructure, Zac's leadership remains unwavering-structured, adaptable, and purpose-driven.

### Summary

Mission-oriented leader with 20+ years of combined experience in Special Forces, facilities operations, and low-voltage infrastructure. Expert in project coordination, physical security systems, and preventative maintenance with a proven track record in both high-stress military and technical civilian environments.
